M S MOHAMMAD ABBAS

Software Engineer | Full Stack Developer | Python | Django | REST APIs | JavaScript

+91 74117 25609 | mohammedabbas50605@gmail.com | github.com/MSAbbas-21 | linkedin.com/in/mohammed-abbas

PROFESSIONAL SUMMARY

Entry-level Software Engineer (BCA, 8.5 CGPA) with hands-on experience across the software development life cycle: requirement analysis, design, coding, testing, debugging, and support. Junior Developer Trainee building and maintaining features for a live enterprise trade-finance application, with experience in version control, bug fixing, and code reviews. Full stack developer skilled in Python, Django, Django REST Framework, JavaScript, SQL, HTML5, CSS3, and Tailwind CSS. Completed Intro to GenAI certification.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Backend: Django, Django REST Framework (DRF), REST APIs, Backend Development, Django ORM, MVT Architecture
Frontend: HTML5, CSS3, JavaScript, Tailwind CSS, GUI Development, Responsive Web Design
Database: SQLite, Relational Database Design, CRUD Operations, Oracle Database 19c
Core Concepts: OOP, Data Structures & Algorithms, SDLC, Requirement Analysis, Software Design, Auth, Session Management
Tools: Git, GitHub, SVN (TortoiseSVN), VS Code, JSON, Debugging, Bug Fixing, Problem Determination, Code Reviews
AI & Integration: Generative AI (fundamentals), REST API Integration, Full Stack Development, IBM WebSphere App Server 9

PROFESSIONAL EXPERIENCE

Junior Developer Trainee | Unique Force May 2026 - Present

- Working in an enterprise application environment involving Oracle Database 19c, JavaScript, and web technologies.
- Writing and executing SQL queries in Oracle 19c for data retrieval, validation, and troubleshooting.
- Analyzing application issues by tracing data between the application and database layers.
- Working with JavaScript for client-side functionality, form handling, validation, and dynamic web-page behavior.
- Gaining exposure to IBM WebSphere Application Server 9 and understanding its role in enterprise application environments.
- Assisting with application troubleshooting across the frontend, application server, and database layers.
- Working with senior developers to investigate bugs, understand application workflows, and implement assigned fixes.

PROJECTS

ShopSphere - Full-Stack E-Commerce Web Application

Python | Django | Django REST Framework | SQLite | Tailwind CSS | Git

- Developed full stack application with RESTful APIs for product, category, cart, and order management using DRF and Django ORM.
- Implemented authentication functionality, structured application data with Django models, and built responsive Tailwind UI.

College Voting Management System

Python | Django | SQL | HTML5 | CSS3 | JavaScript

- Built end-to-end voting app (backend and GUI) with candidate listing, vote casting, and live results using Django and SQL.
- Implemented a one-vote-per-user policy using authentication and session validation.

Smart Student Management System

Python | Django | SQL | HTML5 | CSS3 | JavaScript

- Developed student records management system with role-based access, admin dashboard, and RESTful CRUD services.
- Added JavaScript form validation and dynamic content rendering to improve user interaction.

EDUCATION & CERTIFICATIONS

- Bachelor of Computer Applications (BCA) - CGPA: 8.5 | Sri Matha Degree College
- Complete Python Full Stack Development Course | J Spiders, Bengaluru
- Pre-University Course (PUC) - 70% | Little Flower Composite PU College
- Introduction to Generative AI | Simplilearn SkillUp (Completed June 2026)
- Programming with Python 3.x | Simplilearn SkillUp (Completed June 2026)
